

COURSE & PROGRAM OUTCOMES OF GEOGRAPHY

B.A. Geography (NEP)

Geography is the study of places and the relationships between people and their environments. Geographers explore both the physical properties of Earth's surface and the human societies spread across it. They also examine how human culture interacts with the natural environment and the way those locations and places can have an impact on people. Geography seeks to understand where things are found, why they are there, and how they develop and change over time. The study of the diverse environments, places, and spaces of Earth's surface and their interactions. It seeks to answer the questions of why things are as they are where they are. The modern academic discipline of geography is rooted in ancient practice, concerned with the characteristics of places, in particular their natural environments and peoples, as well as the relations between the two. Choice Based Credit System (CBCS): Syllabus in Geography

INTRODUCTION: In compliance with recent directives from the University Grants Commission, the undergraduate syllabus for Geography is reframed into Choice Based Credit System largely following the model syllabus prepared by the Department of Geography, Deen Dayal Upadhyaya Gorakhpur University, Gorakhpur.

The objectives: The main objective of this new curriculum is to give the students a holistic understanding of the subject, putting equal weightage to the core content and techniques used in Geography. The syllabus tries to give equal importance to the two main branches of Geography: Physical and Human. The principal goal of the syllabus is to enable the students to secure a job at the end of the undergraduate programme. Keeping this in mind and in tune with the changing nature of Geography, adequate emphasis is rendered on applied aspects of the subject such as emerging techniques of mapping and field-based data generation. The syllabus emphasizes on development of basic skills of the subject, so that everyone need not go for higher studies in search of professional engagement or employment. To summarize in details:

- 1. To orient the students towards identification and analysis of various facets of geographic and geographical features and processes.*
- 2. To develop students' aptitude for acquiring basic skills of carrying out field work.*
- 3. To facilitate the students to learn skills of map making.*
- 4. To guide students to learn the science and art of collecting, processing and interpreting the data.*
- 5. To expose the students to the use of the updated technologies of remote sensing, GNSS, Geographical Information System (GIS) and GIS science.*

LEARNING OUTCOMES: This syllabus is designed to impart basic knowledge on geography as a spatial science and train the undergraduates to secure employment in the sectors of geospatial analysis, development and planning, mapping and surveying.

ASSESSMENT METHODS: Different methods will be applied to assess the students over the duration of the programme. These include written assignments and oral examinations, group discussions and presentations, problemsolving exercises, field study, experimental design planning, seminars, preparation and presentation of reports and practical record book.

Department of Geography
DDU GORAKHPUR UNIVERSITY, GORAKHPUR
B.A. Geography (NEP) Syllabus

Semester-wise Titles of the Papers in BA Geography 4 Year Course (NEP)

Year	Semester	Course Code	Paper Title	Theory /practical	Credit
1	I	GEO101F	Physical Geography	Theory	04
1	I	GEO102F	Fundamentals of Practical In Geography	Practical	04
1	II	GEO103F	Human Geography	Theory	04

UG Honors with Research (For Students who secured 75% Marks in First Six Semester)					

Semester I Course I (Theory)

Course Title: Physical Geography

Course Code: GEO101F

Credits-04,

Course Outcome- Student will gain the knowledge of physical geography.

- They will gather knowledge about the fundamental concepts of Geography and will have a general understanding about the geomorphologic and geotectonic process and formation.
- Imbibing knowledge, skills and holistic understanding of the Earth, atmosphere, oceans and the planet through analysis of landform development

Units	Sub Topics	Periods
1.	Nature, Scope & Branches of Physical Geography, Geological Time Scale, Earth Origin Theories; Earth's Interior; Isostasy; Continental drift; Concept of Plate Tectonics.	15
2.	Endogenetic & Exogenetic Forces (Folding & Faulting, Earthquakes and Volcanoes types); Rock types and formation; Denudation; Geomorphic processes and landforms – Fluvial, Arid and Coastal.	15
3.	Composition and structure of atmosphere; Vertical & Horizontal distribution of Temperature; Insolation; Air Pressure and Winds; Humidity; Air masses and front; Cyclone; Koppen's Climatic Classification	15
4.	Major relief features of Ocean Basin; Temperature; Salinity and Major oceanic current; Coral Reefs & Atolls, Tide.	15
Continuous Internal Assessment		

Suggested Readings:

1. Bloom, A. L. (2003). *Geomorphology: A Systematic Analysis of Late Cenozoic Landforms*, New
2. Bunnett, R.B. (2003): *Physical Geography in Diagrams*, Fourth GCSE edition, Pearson Education (Singapore) Private Ltd. Delhi, India: Prentice-Hall of India.
3. Gautam, Alka (2010): *BhautikBhoogol*, Rastogi Publications, Meerut.
4. Huggett, R.J. (2007): *Fundamentals of Geomorphology*. New York, U.S.A.: Routledge.
5. Husain, Mazid (2011) :*BhautikBhoogol*, Rawat Publication, Jaipur John Wiley and Sons, Inc.
6. Khullar, D.R. (2012). *Physical Geography*. New Delhi. India: Kalyani Publishers.
7. Lal, D.S. (2012) :*BhautikBhoogol*, ShardaPustakBhawan, Allahabad.
8. Leong, Goh Cheng (2003): *Certificate Physical and Human Geography*, Oxford University Press, New Delhi.
9. Singh, Savindra (2018), *Physical Geography (Eng./Hindi)* Allahabad, India: Prayag Pustak.
10. Strahler, A. H. and Strahler, A N. (2001): *Modern Physical Geography (4/E)*. New York, U.S.A.
11. Thornbury, W. D. (2004): *Principal of Geomorphology*. New York, U.S.A.: Wiley.
12. Tikka, R. N.(1989): *BhautikBhoogol*, Kedarnath Ram Nath, Meerut.
13. Trewartha, G. et.al. (2015) : *Fundamentals of Physical Geography*, McGraw Hill Book Company Inc.
14. Wooldridge, S.W. and Morgan, R.S. (1959): *The Physical Basis of Geography- An Outline of Geomorphology*, Longman, London

BA. 1st Year, Sem. I, Course II (Practical)

Course Title: **Fundamentals of Practical in Geography**

Course Code: **GEO102F**

Credits- **04**

Course Objectives: 1. Create professional and aesthetically pleasing maps through thoughtful application of cartographic conventions; 2. Develop an understanding of the concepts regarding scale, map projections to suit map purposes and basic knowledge of surveying.

Learning Outcome: This is a practical, hands-on course; when you have completed it, you will be able to: 1. explain how maps work, conceptually and technically and will be able to understand science and art of cartography 2. Recognize the benefits and limitations of some common map projections and their use. 3. Understand and perform analysis of different topographical profiles and its interpretation. The Map projections and basics of creation will be taught to provide understanding of shape, size and structure of country while creating shape files and basic knowledge of surveying in different methods.

Credits: 04	
Units	Topic
I	Cartography – Nature and Scope; Scales-Comparative; Diagonal & Vernier Scale.
II	Meaning, Definition of Contour; Representation of Landforms through Contour: Conical Hill, Ridge, Saddle, Plateau, V and U Shape Valley, Spur etc.
III	Study and interpretation of Topographical Map (Mountain, Plateau & Plain) with the help of Cross and Longitudinal Profiles
IV	Surveying- Plane Table Surveying- Radiation or Radial line Methods, Intersection Method, Traverse line method.

Suggested Readings:

1. Chauhan, P.R. (2014) : Prayogatama Bhoogol, Vashundhara Prakashan, Gorakhpur.
2. Gupta, K.K. and Tyagi, V.C. (1992) : Working with Maps, Survey of India, DST, New Delhi.
3. Hinks, A. R. (1921): Map Projection, Cambridge University Press, London.
4. Mishra, R.P. and Ramesh A. (1989): Fundamentals of Cartography, Concept Publishing Company, New Delhi.
5. Raisz, E. (1962): Principles of Cartography, McGraw Hill, New York..
6. Robinson, A. H., Sale, R., Morrison, J. and Muehrcke, P. C (1984): Elements of Cartography.
7. Sarkar, A. (2015) : Practical Geography - A Systematic Approach. Orient Black Swan Private Ltd., New Delhi.
8. Sharma, J. P. (2001): Prayogik Bhoogol, Rastogi Publication, Meerut.
9. Shrivastava, V.K. and Prasad, Mahatam (1995) : Bhoogol Me Sankhikiya Vidhiyan, Vashundhara Prakashan, Gorakhpur.
10. Singh, L.R. & Singh, R. (1977): Manchitra aur Prayogatama Bhoogol, Central Book Depot, Allahabad.
11. Singh, L.R. (2013): Fundamentals of Practical Geography, Sharda Pustak Bhawan, Allahabad.
12. Singh, R.L. and Dutta, P.K. (2012) : Prayogatama Bhoogol, Central Book Depot, Allahabad.
13. Singh, R.L. and Singh, Rana P.B. (1993): Elements of Practical Geography. (Hindi and English editions). Kalyani Publishers, New Delhi.
14. Steers, J. A. (1965): An Introduction to the Study of Map Projection. University of London Press, London.
15. Tiwari, R.C. & Tripathi, S. (2000): Prayogatama Bhoogol, Prayag Pustak Bhawan, Allahabad.

**B.A. 1st Year, Sem. II,
Course I (Theory)**

Course Title: Human Geography (Theory)

Course Code: GEO103F

Credits: 04

Course Outcomes Gain knowledge about major themes of human Geography.

- Acquire knowledge on the history and evolution of humans.
- Understand the approaches and processes of Human Geography as well as the diverse patterns of habitat and adaptations.
- Develop an idea about space and society

Unit	Topic	No. of Lectures
I.	Meaning & Scope; Evolution; Principles and Approaches of Human Geography; Man and Environment Relationships- Determinism, Possibilism, Neo-determinism, Evolution of Man, Human Races.	15
II.	World Tribes- Pygmies, Kirghiz, Eskimos, Bushmen, Indian Tribes- Gond, Gaddi, Tharu and Santhal	15
III.	Distribution of population, Global migration causes and consequences, concept of over, under, and optimum population. Population Growth Theories: Malthus and Demographic Transition Theory	15
IV.	Human Settlements: - Rural Settlements- Types and Patterns with Special Reference to India; Urban Settlements- Trend & Pattern of Urbanization in the World.	15
Continuous Internal Assessment		

Suggested Readings:

1. Blij, H.J.de (1996): Human Geography: Culture, Society and Space (2nd edition), John Wiley and Sons, New York.
2. Chisholm, M. (1985): Human Geography, 2nd edition, Penguin Books, London.
3. Dikshit, S.K. & Tripathi, R.D.: Sanskrit Bhugol, Vashundhara Prakashan, Gorakhpur.
4. Husain, Mazid (1994): Human Geography, Rawat Publications, Jaipur
5. Hussain, Majid (2012): Manav Bhugol, Rawat Publications, Jaipur
6. Kaushik, S.D. (2010): Manav Bhugol, Rastogi Publication, Meerut.
7. Kaushik, S.D. and Sharma, A.K. (1996): Manav Bhoogol Ke Sidhhanth (in Hindi), Rastogi Publication, Meerut.
8. Maurya, S.D. (2012): Manav Bhugol, Sharda Pustak Bhawan. Allahabad.
9. Michael, C.M. (1997): Process and Change in Human Geography, Nelson, London.
10. Norton, W. (1995): Human Geography, Oxford University Press, New York.
11. Singh, K.N. and Singh, J. (2001): Manav Bhugol, Gyanodaya Prakashan, Gorakhpur.
12. Singh, L.R. (2005): Fundamentals of Human Geography, Sharda Pustak Bhawan, Allahabad.
13. Smith, D.M. (1977): Human Geography- A Welfare Approach, Edward Arnold (Publishers) Ltd., London
14. Srivastava, V.K. & Rao, B.P.: Manav Bhugol, Vashundhara Prakashan, Gorakhpur
15. Stoddard, R.H., Wishart, D.J. and Blouet, B.W. (1986): Human Geography, Prentice-Hall, Englewood Cliffs, New Jersey.

**B.A. 1st Year Sem.-II,
Course II (Practical)**

Course Title: Geological map, Diagrams, Graphs and Survey- Prismatic Compass

Course Code: GEO104F

Credits: 04

Course Outcomes: Comprehend the concept and principles of Map Design and representation of data through Line, Bar and Circle, Pie diagram.

- Interpret geological and weather maps.
- Learn the usages of survey instruments.
- Brings direct interaction of different types of surveying. Instruments learning
- Develop an idea about different types of thematic mapping techniques.

Unit	Topic	No. of Lectures
I.	Maps – Classification and Types; Principles of Map Design. Diagrammatic Data Presentation – Line diagram,, Bar diagram and Circle diagram, Pie diagram	15
II.	Thematic Mapping Techniques – Properties, Uses and Limitations; Maps Preparation- Isopleths, Choropleth, Dot Map	15
III.	Geological Maps: Types, Conventional Signs, Bed and Bedding plane, Rock Outcrop, Dip, Strike etc. Construction of Geological Sections- Horizontal, Inclined and Folded.	15
IV.	Prismatic Compass Survey	15

Suggested Readings:

1. Monkhouse, F. J. and Wilkinson, F.J. (1985): Maps and Diagrams. Methuen, London
2. Raisz, E. (1962): General Cartography. John Wiley and Sons, New York. 5th edition.
3. Sharma, J. P. (2001): Prayogik Bhugol., Rastogi Publication, Meerut 3rd. edition.
4. Singh, R.L. and Singh, Rana P.B. (1993): Elements of Practical Geography. (Hindi and English editions). Kalyani Publishers, New Delhi,.
5. Singh, L.R. (2006): Fundamentals of Practical Geography, Sharda Pustak Bhawan, Allahabad.
6. Sharma, JP. (2008): Prayogatmak Bhugol Ki Rooprekha, Rastogi Publications-Meerut.

**B.A. IInd Year Sem.-III,
Course I (Theory)**

Course Title: Economic Geography

Code: GEO201F

Credits:-04,

Course Outcome: To Introduces concept and approaches of economic geography and understanding of the Resources

- To impart knowledge on the factors of localization of economic activities and to develop the understanding of the various models and theories related to the economic activities.
- To develop the understanding of the world trade patterns and affecting factors.
- Understand the nature of Economic activities, Resource Distribution.
- To Understand the Effect of globalization on developing countries

Units	Topic	Periods
I	Meaning, concepts and approaches of Economic Geography; Resources: meaning, concept and classification.	15
II	Types of Economic Activities; Agriculture and Factors affecting Agriculture, Theory of Agricultural location-model of J.H.Von Thunen, Distribution and Production of Major Crops: Wheat, Rice, and Tea; Agricultural region of the world of Derwent Whittlesey,.	15
III	World Distribution and Production of Minerals: Iron ore, Coal and Petroleum. Theory of industrial location (Alfred Weber),Types of industries; Distribution of Iron & steel industry and Cotton textiles with reference to USA, China and Japan,	15
IV	WTO and International trade: Patterns and trends. Effect of globalization on developing countries, EU and SAARC	15
Continuous Internal Assessment		

Suggested Readings:

1. B.N.Singh (2021) Manav evam Arthik Bhugol, Pravalika Publication, Allahabad
2. Bryson, J., Henry, N., Keeble, D. and Martin, R. (eds.) (1999): The Economic Geography Reader: Producing and Consuming Global Capitalism. John Wiley and Sons, Inc, New York.

**BA. Hnd, Sem.-IV,
Course - II (Practical)**

Course Title: Statistical Methods in Geography (Practical)

Course Code: GEO204F

Credits: 04

Course Outcomes: Learn the significance of statistics in geography.

- Understand the importance of data use in geography
- Recognize the importance and application of Statistics in Geography
- Interpret statistical data for a holistic understanding of geographical phenomena.
- Learn to use tabulation of data. Gain knowledge about association and correlation.

Unit	Topics	No. of Lectures
I.	Types & Sources Data in Geography; Significance of Statistical Methods in Geography; Levels of Measurement (Nominal, Ordinal, Interval, Ratio)	15
II.	Tabulation and Illustration: Frequency Distribution Table, Cross Tabulation,	15
III.	Graphical Presentation of Data; Histograms, Frequency Curve and Cumulative Frequency Curves	15
IV.	Measurement of Central Tendencies - Mean, Median, Mode; Standard Deviation and Correlation.	15
		60

Suggested Readings:

BA. III, Sem.-V, Course - I (Theory)

Course Title: Environmental Studies

Course Code: GEO301F

Credits: 04

Course Outcomes: Learn to associate climate with other environmental and human issues

- Student will learn about the man and environmental relationship
- Learn the interaction between the atmosphere and the earth's surface.
- Student will come across the various hazards and their management.
- Student will aware about the earth climate change and its various indicator, causes and consequences.

Unit	Topic	No of Lectures
I.	Environment: Concept and component; Ecosystem: Concepts, types & components, Trophic level and Energy flow, Concept of Biogeochemical Cycle	15
II.	Environmental Degradation; Causes and consequences of Deforestation, soil erosion; Pollution: Air & water pollution	15
III.	Environmental Hazard: Concept & typology; Earthquake, Flood, Cyclone & Drought; Concept of Disaster Management.	15
IV.	Climate Change, Green house effects & Global warming, Ozone depletion.	15
Continuous Internal Assessment		

Suggested Readings:

1. Casper J.K. (2010). *Changing Ecosystems: Effects of Global Warming*. New York, USA: Infobase Pub.
2. Hudson, T. (2011). *Living with Earth: An Introduction to Environmental Geology*. Delhi, India: PHI Learning Private Limited.
3. Miller, G.T. (2007). *Living in the Environment: Principal, Connections, and Solutions*. Belmont, Australia: Brooks/ Cole Cengage Learning.
4. Singh, R.B. (1993) *Environmental Geography*. Delhi, India: Heritage Publishers.
5. UNEP. (2007). *Global Environment Outlook: GEO4: Environment For Development, United Nations Environment Programme*. UK: University Press, Cambridge.
6. Government of India. (2011). *Disaster Management in India*. Delhi, India: Ministry of Home Affairs.

16. Bansal SC,(2020) *Jalvayu vigyanevam Samudra Vigyan*, Meenakshi Publication, Meerut.

B.A. III, Sem-V
Course II (Theory)

Course Title: Evolution of Geographical Thought

Course Code: GEO302F

Credits: 04

Course Outcomes: Perceive the evolution of the philosophy of Geography. • Appreciate the contribution of the thinkers in Geography. • Give power point presentations on different schools of geographical thought. • Discussing the evolution of geographical thought from ancient to modern times. • Establishing relationship of Geography with other disciplines and man-environment relationships. • Analyzing modern and contemporary principles of Environmentalism, and other dualism approaches in Geography

Unit	Topic	No. of Lectures
I.	Indian Geographical Knowledge System during Vedic, Epic, Puranic and Buddhist Period. Contribution of Ancient Indian Geographers; Contributions of Greek and Roman Geographers; Contribution of Arab geographers.	15
II.	Renaissance and Period of Geographical Discoveries; German School of Geography: Contribution of Humboldt, Ritter, Ratzel, French School of Geography, Contribution of Blache and Brunhes.	15
III.	Contribution of Soviet Geographers, American School- Contribution of Davis, Semple, Huntington, Carl Sauer; British School- Contribution of Mackinder, Herbertson and L.D.Stamp.	15
IV.	Nature and Scope of Geography, Dualism in Geography, Recent Trends of Geography, Progress of Geography of India.	15
Continuous Internal Assessment		60

Suggested Readings:

1. Adhikari, Sudepta (2015) : Fundamentals of Geographical Thought, Orient Black Swan Pvt. Ltd.
2. Ali, S.M. (1983): The Geography of Puranas, People's Publishing House, New Delhi, Third Edition.
3. Dickinson, R.E. (1969): Makers of Modern Geography , XIV Frederick A. Praeger, New York
4. Diddee, J. (ed.) (1990): Indian Geography, Institute of Indian Geographers, Pune.
5. Dikshit, R. D. (2003): Geographical Thought: A Critical History of Ideas. Prentice-Hall India, New Delhi. (in English and Hindi).
6. Dube, B.(1967): Geographical Concepts in Ancient India, National Geographical Society of India, Varanasi
7. Getice, A., Getis, J. and Fellman, J. D. (2007): Introduction to Geography. 10th edition. McGraw Hill, New York.
8. Hartshorne R.(1959) : Perspectives on the Nature of Geography, Rand MacNally and Co.
9. Hartshorne, R. (1939): Nature of Geography, Association of American Geographers, Indian Reprint- Rawat Publications, Jaipur.
10. Harvey, D. (1969): Explanations in Geography. Arnold, London.
11. Holt-Jensen A. (2011) : Geography: History and Its Concepts: A Students Guide, SAGE Publication, New Delhi.
12. Kaushik, S.D. and Sharma, A.K. (1995): Geographic Thought and Methodology (in Hindi), Rastogi Publication, Meerut.
13. Mazid Hussain :- Evolution of Geographical Thought(Hindi & English), Jaipur
14. Rawling, E. and Daugherty, R. (eds.) (2005): Geography into the Twenty-first Century. 2ndedition. John Wiley and Sons, Chichester.
15. Singh, J. (2001): Bhogolik Chintan Ke Moolaadhar, GyanodayaPrakashan, Gorakhpur.
16. Singh. J :Bhaugolik Chintanka KramVikas, Gyanodaya Prakashan, Gorakhpur.
17. Taylor, G. (ed.) (1953): Geography in the Twentieth Century. Methuen and Company, London.

B.A. III, Sem- V
Course - III (Practical)

Course Title: Tour and Tour Report

Course Code: GEO303F

Credits: 04

Unit	Topic	No. of Lectures
I	<p>Various aspects of study in Field Tour, Preparation of Surveying in Field Study, and Methods for preparing field report/ Educational Excursion Report.</p> <p>* The field study (minimum three days stay) must be conducted in the area other than the Gangetic Plain. The TA/DA and other allowances for the tour In-charge of the field study will be withdrawn from the Lab Fund to respective Institution (All the responsibilities should be taken by Head of the Institution –Registrar in the case of the University and Principal in case of the college)</p>	30
II	Report shall be based on Tour as per the study area.	30

Suggested Readings:

1. Monkhouse, F. J. and Wilkinson, F.J. (1985): Maps and Diagrams. Methuen, London
2. Raisz, E. (1962): General Cartography. John Wiley and Sons, New York. 5th edition.
3. Sharma, J. P. (2001): PrayogikBhugol., Rastogi Publication, Meerut 3rd. edition.
4. Singh, R.L. and Singh, Rana P.B. (1993): Elements of Practical Geography. (Hindi and English editions). Kalyani Publishers, New Delhi,.
5. Singh, L.R. (2006): Fundamentals of Practical Geography, Sharda Pustak Bhawan, Allahabad.
6. Sharma, JP. (2008): Prayogatmak Bhugol Ki Rooprekha, Rastogi Publications-Meerut.

B.A. III, Sem- VI

Course I (Theory)

Course Title: Geography of India (Theory)

Course Code: GEO304F

Credits: 04

Course Outcome:

- Various dimensions of the geographical features of India and their spatial distribution.
- Understanding of regional divisions of India.
- Detailed exposure to the human and physical features of India.
- Understanding socio-Economic base of India.

Unit	Topic	No. of Lectures
1	Physiography; Drainage system and pattern; Indian climate; Types of Soils & Natural Vegetation.	15
2	Population Growth, Distribution and Pattern; population policy ,Major Agricultural Crops- Paddy, Wheat, Cotton and Tea, Characteristics of Indian Agriculture	15
3	Mineral Resources – Iron- ore , Mica and Power Resources - Coal, Petroleum, Non-conventional power resource , Industry: Evolution of industries; Major Industries: Iron & steel, Cotton Textiles	15
4	Transport in India- Rail, Road, Air and Water. Functional classification of Indian towns and Cities; Urbanization in India- Problems and Prospects	15
Continuous Internal Assessment		

Suggested Readings:

1. Chauhan, P.R. and Prasad, M. (2003): Bharat Ka Vrihad Bhoogol, Vasundhara Prakashan, Gorakhpur.
2. Farmer, B.H. (1983) : An Introduction to South Asia, Methuen, London.
3. Gautam, A. (2006): Advanced Geography of India, Sharda Pustak Bhawan, Allahabad.
4. Johnson, B.L.C. (1983) : Development in South Asia, Penguin Books, New York.
5. Khullar, D.R. (2007): India: A Comprehensive Geography, Kalyani Publishers, New Delhi.
6. Nag, P. and Gupta, S. S. (1992): Geography of India, Concept Publishing Company, NewDelhi.
7. Rao, B.P. (2016) : Bharat ki Bhaugolik Sameeksha, Vasundhara Prakashan, Gorakhpur.
8. Sharma, T.C. and Coutinho, O. (2003): Economic and Commercial Geography of India, Vikas Publishing House Private Ltd. New Delhi.
9. Singh, J. (2003): India: A Comprehensive Systematic Geography. Gyanodaya Prakashan, Gorakhpur.
10. Singh, J. (2001): Bharat: Bhougolik Aadhar Avam Ayam, Gyanodaya Prakashan, Gorakhpur.
11. Singh, R.L. (ed.) (1971): India: A Regional Geography. National Geographical Society of India, Varanasi.
12. Spate, O.H. K., Learmonth A. T. A. (2004): India, and Pakistan: A General and Regional Geography, Methuen & Co. Ltd., London.

B.A. III, Sem-VI Course II (Theory)

Course Title: Basic of Remote Sensing

Course Code: GEO305F

Credits: 04

Course Outcomes:

- Have knowledge of the principles of remote sensing, sensor resolutions and image referencing schemes.
- Interpret satellite imagery and understand the preparation of false color composites from them.
- Analyzing and interpreting remotely sensed satellite images and aerial photographs in order to understand topographical and cultural variations on the Earth surface.

Unit	Topic		No. of Lectures
I.	Basics of Remote Sensing	Meaning, Definition & History of Remote Sensing in the world. Stages, Elements and Types	15
II.	Platform in Remote Sensing;	Platforms: Role of Platform in Remote Sensing; Manned Earth Resource Satellite; Unmanned Earth Resource Satellite, Meteorological Satellite.	15
III.	EMR and its Mechanism	EMR and Mechanism; Principles of Remote Sensing, EMR Interaction, EMR properties; Reflection, Emission, Absorption, Transmission, Scattering Fundamental properties of sensors; Sensors; types, Resolution in Remote Sensing, types of sensors- Passive and active sensors	15
IV.	Indian Remote Sensing:	Indian Remote Sensing: History and Development of IRS system	15
		Continuous Internal Assessment	

Suggested Readings:

1. Bhatta, B. (2008). Remote Sensing and GIS. New Delhi, India: Oxford University Press.
2. Campbell J. B. (2007). Introduction to Remote Sensing. UK: Guildford Press
3. Jensen, J. R. (2005). Introductory Digital Image Processing: A Remote Sensing Perspective. USA: Pearson Prentice-Hall.
4. Lillesand T. M., Kiefer R. W. and Chipman J. W. (2004). Remote Sensing and Image Interpretation. USA: Wiley. (Wiley Student Edition).
5. Wolf P. R. and Dewitt B. A., 2000: Elements of Photogrammetry: With Applications in GIS, McGrawHill. Suggestive:
6. Chauniyal, D.D. (2010). SudurSamvedanevamBhogolikSuchanaPranali. Allahabad, India: ShardaPustakBhawan.
7. Li, Z., Chen, J. and Batsavias, E. (2008). Advances in Photogrammetry, Remote Sensing and Spatial Information Sciences. London, UK: CRC Press, Taylor and Francis.
8. Mukherjee, S. (2004). Textbook of Environmental Remote Sensing. Delhi, India: Macmillan. 4. Nag P. and Kudra, M. (1998). Digital Remote Sensing. Delhi, India: Concept.
9. Sarkar, A. (2015). Practical geography: A systematic approach. Delhi, India: Orient Black Swan Private Ltd.

B.A. III, Sem-VI
Course - III (Practical)

Course Title: Research Methodology & Project Report

Course Code: GEO306F

Credits: 04

Course Outcome:

- Can understand scientific research in Geography.
- Comprehends method and models.
- Explain research process and know report writing.

Unit	Topic	No. of Lectures
I	Meaning, types and significance of Research, Literature review, Research problem, objectives,	15
II	Sources of Data: Primary and Secondary; Formulation of research design	15
III	Sampling: Probability and Non Probability. Research methods: Correlation: Rank Correlation and Simple Regression	15
IV	Techniques of writing scientific reports: Referencing and Bibliographic techniques-APA and Harvard; Abstract and Key words.	15
<p>Note: Prepare the Practical File based on the course content of the paper and Viva-Voce will be conducted for evaluation.</p> <p>Internal Assessment will be done based on continuous assessment from assignment and project work.</p>		

Suggested Readings:

1. Monkhouse, F. J. and Wilkinson, F.J. (1985): Maps and Diagrams. Methuen, London
2. Raisz, E. (1962): General Cartography. John Wiley and Sons, New York. 5th edition.
3. Sharma, J. P. (2001): PrayogikBhugol., Rastogi Publication, Meerut 3rd. edition.
4. Singh, R.L. and Singh, Rana P.B. (1993): Elements of Practical Geography. (Hindi and English editions). Kalyani Publishers, New Delhi,.
5. Singh, L.R. (2006): Fundamentals of Practical Geography, ShardaPustakBhawan, Allahabad.
6. Sharma, JP. (2008): PrayogatmakBhugol Ki Rooprekha, Rastogi Publications-Meerut.

UG Honors

B.A. IV, Sem-VII

Course I (Theory)

Paper Code: GEO401F

Course: Theory -Core

Title of the Paper: Geographical Thought: Concepts and Issues

Credits 4

Units	Topics	Sub Topics	Periods
1	Introduction	Indian Knowledge System, Paradigm Shift in Geography, Positivism in Geography	15
2	Quantitative Revolution	Quantitative Revolution and its Impact; Systems and Models in Geography; Theories and Laws in Geography.	15
3	Major Concepts	Concept of Earth Surface; Concept of landscape; Concept of Region; Typology and Regionalization; Concept of Spatial Organization.	15
4	Humanistic Geography	Radical Geography: Geography as a Science of Human Welfare; Behavioralism & Phenomenology in Geography Concept of Post-modernism in Geography; Feminist & Gender Geography	15
Continuous Internal Assessment			

Course Outcomes

- Introduce the students changing Paradigm in Geography based on various thoughts from ancient to modern periods,
- It enhances the conceptual and philosophical knowledge of Geography.
- It explain show Geography as a Science of Human Welfare.

Reference Books:

1. Adhikari, Sudipto (2009): Fundamentals of Geographical Thought, Chaitanya Pub. House, Allahabad.
2. Arild, H. J. (1999): Geography: History and Concepts, SAGE Publications, London
3. Chorley, R. J. (Ed): Directions in Geography, Methuen and Co., London
4. Chorley, R.J. & Haggett, P. eds. (1967): Integrated Models in Geography, Methuen, London.
5. Davies, W.K.D. (1972): The Conceptual Revolution in Geography, University of London Press, London.
6. Dear, M. J. and Flusty, S. (2002): The Spaces of Postmodernity: Readings in Human Geography. Blackwell Publishers, Oxford.
7. Dickinson, R.E. (1969): The Makers of Modern Geography, Routledge and Kegan Paul, London.
8. Dikshit, R. D. (2004): Geographical Thought. A Critical History of Ideas. Prentice-Hall of India, New Delhi. (in English and Hindi).
9. Dikshit, S.K. (2001): Bhaugolik Chintan Ka Udbhav Avam Vikas, Vishwavidyalaya Prakashan, Varanasi.
10. Hartshorne, R. (1959): Perspectives on the Nature of Geography, John Murray, London.
11. Harvey, D. (1969): Explanation in Geography, Edward Arnold, London.
12. Harvey, M. E. and Holly, P.B. (2002): Themes in Geographic Thought. Rawat Publications., Jaipur and New Delhi.
13. Hubbard, P., Kitchin, R., Bartley, B. and Fuller, D. (2002): Thinking Geographically: Space, Theory and Contemporary Human Geography. Continuum, London.
14. Husain, Majid (2001): Evolution of Geographical Thought, Rawat Publications, Jaipur.
15. James, P.E. & Jones, C.F. (1954): American Geography : Inventory & Prospect, Syracuse Univ. Press, New York.
16. James, P.E. (1980): All Possible World: A Hundred Years of Geography, Sachin Pub. Jaipur.
17. Johnston, R, Gregory D, Pratt G, Watts M. and Whatmore S. (2003): The Dictionary of Human Geography. Blackwell Publishers, Oxford. 5th edition.
18. Johnston, R.J. (1984): Geography and Geographers, Arnold Heinemann, London.
19. Johnston, R.J. (1985): The Future of Geography, Methuen and Company Ltd., New York. (2003 edition published).
20. Johnston, R.J. and Sidaway, J.D. (2004): Geography and Geographers. 6th edition, Edward Arnold, London.

B.A. IV, Sem-VII

Course II (Theory)

Code: GEO402F

Course: Theory - Core

Title of the Paper: Advance of Geomorphology

Credits 4

Units	Topics	Sub Topics	Periods
1	Fundamentals of Geomorphology	Meaning, Scope & Evolution of Geomorphology; Fundamental Concepts of Geomorphology; Concept of Morphogenetic region.	15
2	Theories & Models in Geomorphology	Theories of Landscape Development (Davis, Penck, JT Hack, SA Schumm; Plate Tectonics Associated Process; Slope Development Approach and Theories.	15
3	Techniques in Geomorphology	Denudation chronology, Erosion Surface; Relief and Fluvial Morphometry; Channel Morphology; Digital Elevation Model (DEM).	15
4	Applied Geomorphology	Application of Geomorphology: Disaster Management and Civil Projects: Dams (Tehri and Damodar) and Road Construction (Atal Tunnel, Uttarakhand Tunnel).	15
Continuous Internal Assessment			

Course Outcomes

- Introduces concept of time scale in Geomorphology
- Impart knowledge on different models of landscape development
- Explain its scope on applied aspects with respect to civil projects, disaster Management, minerals and energy

Reference Books:

1. Anhert, F. (1996): Introduction to Geomorphology, Edward Arnold, London.
 2. Bloom. A.L. (1979): Geomorphology, Prentice Hall, New Jersey, USA.
 3. Chorley, R. J., Schumm, S.A. and Sugden, D.E. (1984): Geomorphology, Methuen, London.
 4. Dayal, P. (1987): Geomorphology (in Hindi), Patna.
 5. Dikshit, K.R. et.al. (1994): India Geomorphological Diversities, Rawat Pub. Jaipur.
 6. Fairbridge, R.W. (1968): Encyclopaedia of Geomorphology, Reinholdts, New York.
 7. Kale, V.S. and Gupta, A. (2001): Introduction to Geomorphology, Orient Longman, Hyderabad.
 8. King, C.A.M. (1968): Techniques in Geomorphology, Edward Arnold, London.
 9. Melhorn, W.N. & Flemal, R.C. (1981): Theories of Landforms Development, George Allen Unwin, London.
 10. Miller, A. A. (1953): The Skin of the Earth, Methuen and Co. Ltd., London
 11. Ollier, C.D. (1981): Tectonics and Landforms, Longman, London.
 12. Sharma, H.S. (1987): Tropical Geomorphology, Concept Publishing Company, New Delhi.
 13. Sharma, H.S. and Kale, V.S. (2009): Indian Geomorphology, Rawat Pub. Jaipur.
 14. Singh, Savindra (2005): Geomorphology, PrayagPustakBhawan, Allahabad. (Hindi & English)
 15. Small, R.J. (1976): The Study of Landforms, Cambridge University Press, Cambridge.
 16. Sparks, B.W. (1988): An Introduction to Geomorphology, Longman, London.
 17. Steers, A. (1958): The Unstable Earth, Methuen, London
 18. Strahler, A.H. and Strahler, A.N. (1992): Modern Physical Geography, John Wiley, New York
- Strahler, A. N. (1964): Quantitative Geomorphology of Drainage Basins and Channel Networks, In: Handbook of Applied Hydro.

B.A. IV, Sem-VII
Course III (Theory)

Code: GEO403F

Course: Theory- Core

Title of the Paper: Physical and Economic Geography of India

Credits 4+0

Units	Topics	Sub Topics	Periods
1	Geology & Relief	Geological Structure of India; Origin of Himalayas, Origin of Drainage Systems of India. Delimitation & Characteristics of Physiographic Regions	15
2	Climatic Characteristics	Mechanism and Recent Trends of the Indian Monsoon; Climatic Regions; Agro-Climatic Regions.	15
3	Resource Base	Population growth and distribution; Population Resource Regions; Role of Green Revolution; Agricultural Regions & New Trends in Indian Agriculture; Mineral Resource Regions	15
4	Industrial Development	Industrial Policies & Trend of Industrialization; Industrial Regions, Impact of Globalization on Indian Economy; Regional Development and Disparities, Problems & Prospects of Industrially Backward regions of India	15
Continuous Internal Assessment			

Course Outcomes

- Introduces physical aspects of the Indian sub-continent.
- Appraise the climatic characteristics and resource base of India.
- Discuss the pattern and level of development in India.

Reference Books:

1. Bansal, S.C. (1999): Advanced Geography of India, Meenakshi Publication, Meerut.
2. Chauhan P.R. (2001): Bharat Ka Vrihat Bhoogol, Vasundhara Prakashan, Gorakhpur.
3. Deshpande C.D (1992): India: A Regional Interpretation, Northern Book Centre, New Delhi.
4. Gautam, Alka (2001): Geography of India, Sharda Pustak Bhawan, Allahabad.
5. Govt. of India : Economic Survey, Ministry of Finance, New Delhi (Different Issues)
6. Hussain, Majid (2008): Advance Geography of India, Tata McGraw Hill, New Delhi.
7. Johnson, B.L.C. (1983): Development in South Asia, Penguin Books, Harmondsworth.
8. Khullar, D.R. (2006): India: A Comprehensive Geography, Kalyani Pub., New Delhi.
9. Krishnan, M. S. (1968): Geology of India and Burma, 4th edition. Higgin Bothams Private. Ltd., Madras.
10. Nag, P. and Gupta S. S. (1992): Geography of India, Concept Publishing. Company, New Delhi.
11. Sharma, T. C. (2003): India: Economic and Commercial Geography, Vikas Publication., New Delhi.
12. Singh, J. (2003): India: A Comprehensive and Systematic Geography, Gyanodaya Prakashan, Gorakhpur.
13. Singh, R. L. (ed.) (1971): India. A Regional Geography, National Geographical Society of India, Varanasi.
14. Spate, O.H.K. & Learmonth, A.T.A. (1954): India & Pakistan, Methuen, London.
15. Tiwari, R. C. (2007): Geography of India, Prayag Pustak Bhawan, Allahabad
16. Wadia, D. N. (1959): Geology of India. MacMillan and Company, London and Madras.

B.A. IV, Sem-VII
Course IV(Practical)

Code: GOE404F

Course: Practical

Title of the Paper: Cartography: Projections and Cartograms

Credits0+4

Units	Topic	Sub topic	Periods
1	Classification and Types	Meaning, Classification, and Characteristics of Projections;	5
2	Projections with mathematical calculation	Lambert's Conical, Polyconic, Galls', Equatorial Zenithal Projection: Gnomonic, Stereographic and Orthographic Cases; Mollweide & Sinusoidal: Simple and Interrupted	15
3	Contouring	Block Diagram, Raise and Hennery Method, Hachures	10
4	Cartograms	Climatic Diagrams; Ergo-graph – Climatic and Circular; Water Budget; Multiple Dot & Spherical map	30
Continuous Internal Assessment			60
Assignment/ Presentation/Exercises/Field Work			

Course outcomes

- Impart drawing skill on map projections, various maps and diagrams
- Imparting the skills to understand and draw cartograms

Reference Books:

1. Chauhan P.R. (2014):PrayogatmakBhoogol, Vasundhara Publicaiions, Gorakhpur
2. Davis, R.E. and Foote, F.S.: Surveying - Theory and Practices, Tokyo.
3. Kanetkar, T.P. & Kulkarni, S.V.: Surveying and Leveling, Pune.
4. Mailing, D.H. (1973): Co-ordinate Systems and Map Projections. George Philip and Sons Ltd.
5. Misra, R.P. and Ramesh, A. (1999): Fundamentals of Cartography. Concept Publishing Company, New Delhi.
6. Monkhouse, F.J. and Wilkinson, H. R (1962): Maps and Diagrams,Methuen and Company Ltd. and Company Ltd., London.
7. Raisz, E. (1962): Principles of Cartography. McGraw Hill Books Company, Inc., New York.
8. Robinson (1991): Aerial Photography and Cartography, Mac Millan, London.
9. Robinson, A. H. H., Sale R., Morrison J. and Muehrcke, P. C (1984): Elements of Cartography, 6th edition John Wiley and Sons, New York.
10. Sahani, P.B. (1993): Advance Surveying, New Delhi.
11. Singh, J. et.al. (1990): BhaumikiyaManchitro Ki Ruprekha, Vasundhara Prakashan, Gorakhpur.
12. Singh, L.R. (2001): Practical Geography, Sharda Pustak Bhawan, Allahabad.
13. Singh, R. L. and Singh, Rana P.B. (1993): Elements of Practical Geography. Kalyani Publishers, Ludhiana and New Delhi. (English and Hindi editions).
14. Tiwari, R.C. and Tripathi, Sudhakar (2001): Abhinav PrayogatmakBhoogol, PrayagPushtak Bhawan, Allahabad.

B.A. IV, Sem-VII
Course V (Theory)

Code: GEO405F

Course: Elective

Title of the Paper: Advance Economic Geography

Credits 4+0

Units	Topic	Subtopic	Periods
1	Introduction	Nature and scope; Systematic Development of Economic Geography, Approaches and Fundamental Concept of Economic Geography,	15
2	Application & Relevance of Location and Economic Theories	Location Theories-Von-Thunen; Industrial Location Theory-Weber, Hoover and Losch; Central Place Theory of Christaller.	15
3	Economic Development	World Economic Development, Special Economic Zones and Technology Parks, Theories of Economic development-Growth Pole Theory, Myrdal's Cumulative Causation Theory., Sustainable development.	15
4	International Trade	Factors influencing the international trade, Ricardian Theory of International trade, Emerging Trends of World Trade Pattern, Regional Trade Blocks: SAARC and ASEAN	15
Continuous Internal Assessment			

Course Outcomes

- Introduces nature, scope, methods, approaches and recent trends in economic geography
- Impart knowledge on different locational theory
- Able to explain changing concept of development, world trade patterns and theory on International trade.

Reference Books:

1. Alexander, J.W. (2012): Economic Geography, Prentice Hall of India, New Delhi.
2. Berry, B.J.L. et al. (1976): Geography and Economic Systems, Prentice Hall, Englewood Cliff.
3. Boyce, R.D. (1990): Bases of Economic Geography, Holt Rinehart & Winston, New York. Cliffs, N.J. Prentice.
4. Dreze, J. and Sen, A. (1996): Economic Development and Social Opportunity. Oxford University Press, New Delhi.
5. Haggett, P. (1966): Locational Analysis in Human Geography, St. Martin's Press, New York.
6. Hanink, D.M. (1997): Principles and Applications of Economic Geography, Economy,
7. Hartshorne, T.A. & Alexander, J.W. (1994): Economic Geography, Prentice Hall of India, New Delhi.
8. Hodder, B.W. & Lee, R. (1996): Economic Geography, Methuen, London.
9. Janaki, V.A. (1985): Economic Geography, Concept Publishing Co., New Delhi.
10. Jones & Darkenwald (1960): Economic Geography, New York.
11. Knox, P. and J. Agnew (1998): The Geography of the World Economy. Arnold, London.
12. Lloyd, P. And P. Dicken (1972): Location in Space: A theoretical approach to Economic Geography, Harper and Row, New York.
13. McCarty, H.H. and J.B. Lindberg (1966): A preface to Economic Geography, Englewood, New York.
14. Rostov, W.W. (1960): The Stages of Economic Growth, Cambridge Univ. Press, London.
15. Singh, K.N and Siddiqui, A (2012): Economic Geography, PrayagPustakBhawan, Allahabad
16. Singh, K.N. & Singh, J. (1996): ArthikBhoogolKeMooltatva, GyanodayaPrakashan, Gorakhpur.
17. Smith, G.H. (2000): Conservation of Natural Resources, John Wiley, New York.

B.A. IV, Sem-VII
Course VI (Theory)

Code: GEO406F

Course: Elective

Title of the Paper: Remote Sensing

Credits 4+0

Units	Topics	Sub-topics	Periods
1	Basics of Remote Sensing	Definitions, Scope, potentials and limitations of Remote Sensing; Development in the world and in India, Stages of Remote Sensing, Principles and concept of Remote Sensing: Radiation and Resolution concepts	15
2	Principle of Electromagnetic Radiation	Principle of Electromagnetic Radiation, Electro-magnetic Radiation (EMR)- The nature of radiation; Radiation at source; Radiation in propagation; Radiations at its target; Radiation from sun; Radiation from the earth Properties of EMR; Atmospheric windows; Perturbing effects of the atmosphere.	15
3	Sensors and Sensors	Fundamental properties of sensors; types of sensors- Passive and active sensors; Optical scanner, thermal scanner; Multispectral scanner. Types of Remote Sensing, Platforms and Sensors, LANDSAT And IRS Satellite System	15
4	Geometrics of Aerial photographs	Geometric characteristic of aerial photographs- scale, overlap, side lap, vertical exaggeration, and geometric resolution. Introduction to Elements of Photographic System: Camera System, Film. Basic Geometry & Characteristics of Aerial Photograph, Scale, Image Parallax, Ortho Photo. Photo features, relief displacement.	15
Continuous Internal Assessment			

Course outcomes

- It gives an overview of remote sensing process
- It introduces aerial photo and photo grammetry and satellite remote sensing
- Enables image processing procedure and identify applications of remote sensing

Reference Books:

1. American Society of Photogrammetry (1983): Manual of Remote Sensing, Falls Church, VA.
2. Avery, T. E. and Berlin, G.L. (1992): Fundamentals of Remote Sensing and Air photo Interpretation, Mc Millan, N. York.

B.A. IV, Sem-VII
Course VII (Theory)

Code: GEO407F

Course: Elective

Title of the Paper: Rural Development

Credits 4

Units	Topics	Sub Topics	Periods
1	Introduction	Concept, Approach and Need of Rural Development, Sectoral Imbalance in Rural Development	15
2	Spatial Linkages	Panchayati Raj: Structure and Role in Rural Development Rural-Urban Divide and Continuum, Core and Periphery Relations. Backward and Forward Linkages of Rural Economy.	15
3	Major Issues	Issues and Problems of Rural Areas, Causes & Consequences of Rural Population Migration in India. Transition of Rural Livelihood: Risk and Opportunities	15
4	Policies & Programmes	Area Based Approach to Rural Development: DPAP, PMGSY, Target Group Approach to Rural Development: SJSY, MNREGA, Jan Dhan Yojna IRD, PURA,	15
Continuous Internal Assessment			

Course outcomes

- It introduces basic concept of rural development and its approaches.
- Appraise problems of rural areas and change in rural livelihood.
- Able to analyses policy planning and integrated rural development

Reference Books:

1. Arora, R.C. (1999): Integrated Rural Development, S. Chand & Company, New Delhi.
2. Bhadauria, B.P.S. (1988): Rural Development Strategy and Perspective, Anmol Publication, Delhi.
3. Chauhan, P.R. (1996): Regional Disparities in the Levels of Development, AMGI, Gorakhpur.
4. Dak, T.M. (1987): Social Inequalities and Rural Development, National Publishing House, New Delhi.
5. Desai, Basant (1988): Rural Development VI Vols., Himalaya Publishing House, Mumbai.
6. Dubey, Bechan (1990): Integrated Rural Development (Hindi), Mishra Trading Company, Varanasi.
7. Mishra, R.P. (1987): Rural Development – Capitalist and Socialist Paths, Concept, New Delhi.
8. Misra, R.P. & Sundaram, K.V. (1988): Rural Area Development: Perspective and Approaches, Sterling Publishers, New Delhi.
9. Sharma, S.K. (1990): Integrated Rural Development: Approaches, Strategy and Perspectives, Abhinav Publication, New Delhi.
10. Singh, Katar (1990) Rural Development : Principles, Policies and Management, Sage Publications, New Delhi.
11. Singh, S.K. (2002): Rural Development Policies & Programmes, Northern Book Centre, New Delhi.
12. Srivastava, V.K., Sharma N. & Chauhan, P.R. (2002): Pradeshik Niyojan Avam Santulit Vikas, Vasundhara Prakashan, Gorakhpur.
13. Dikshit, S.K. (2012): Population and Regional Development, Radha Publication, New Delhi.

B.A. IV, Sem-VIII
Course I (Theory)

Code: GEO408F

Course: Theory -Core

Title of the Paper: Climatology

Credits 4+0

Unit	Topic	Sub-topics	Periods
1	Introduction to climate	Weather and Climate, Nature and Scope of Climatology; Electromagnetic spectrum; Insolation; Lapse rate and Inversion of Temperature; Stability and instability.	15
2	General Circulation	Winds and general circulation models; Humidity, Fog and Clouds type; Precipitation & its type; Mechanism of Monsoon – Recent Concepts, El-Nino, La- Nina and ENSO Event.	15
3	Front and cyclone	Air Masses, Fronts & Frontogenesis; Cyclone: Tropical and Temperate; Anti-cyclone.	15
4	Climatic classification and changes	Koppen's, Thornthwaite's & Trewartha's Classification; Climate Change; Weather Forecasting	15
Continuous Internal Assessment			

Course outcomes

- Introduces the meaning, scope and development of modern climatology
- Critically examine the mechanism of monsoon and climatic regionalization.
- Comprehend circulation of atmosphere, human impact on the climate and applied climatology.

Reference Books:

1. Banerji, R.C. & Upadhyay, D.S. (1999): Mausam Vigyan, Rajasthan Hindi Granth Academy, Jaipur.
2. Critchfield, H.J. (2002): General Climatology, Prentice Hall of India, New Delhi.

14. Upadhyay, D.P. & Singh, R. (2003): Climatology and Hydrology (in Hindi), Vasundhara Prakashan, Gorakhpur.

B.A. IV, Sem-VIII
Course II (Theory)

Code: GEO409F

Course: Theory -Core

Title of the Paper: Research Methodology

Credits 4+0

Unit	Topics	Sub-topics	Periods
1	Scientific Research in Geography	Concept, Meaning and Objectives of Research, Types of Research, Overview of Research Process	15
2	Methods and Sources of Data collection	Techniques of Data Collection: Questionnaire and Interview Schedule, Interview, Observation, Case Study; Preparation of Questionnaire, Sampling Design, Selection of Respondents. Sources of Data: (A) Secondary Data: Census, NSS, CSO, Aerial Photographs and Satellite Imageries, Web Portal (B) Primary Data: Observational Method, Questionnaires and Interviews; Sampling Methods.	15
3	Research Process	Defining Research Problem: Identification of Problems, Specification of Objectives, Review of Literature, and Conceptualization of Research Problem, Research Questions and Hypotheses. Research Plan.	15
4	Report writing	Tabulation and Compilation of Data, Content Analysis, Citation, References, Bibliography, Review of Literature, Formatting of Research Reports	15
Continuous Internal Assessment Assignment/ Presentation/Exercises/Field Work			

Course outcomes

- Can understand scientific research in Geography.
- Understand the Methods and Sources of Data collection
- Explain research process and know report writing.

Reference Books:

1. Davis, P.C. (1985): Data Description and Presentation, Oxford, London.
2. Flowerdew, R. et.al. (1997): Methods in Human Geography: A Guide for Students Doing a Research Project, Longman, Harlow.

B.A. IV, Sem-VIII
Course III (Theory)

Code: GEO410F

Course: Theory-Core

Title of the Paper: Regional Geography of India

Credits 4+0

Units	Topics	Sub Topics	Periods
1	Region and Regionalization	Concept of Region and Regional Geography, Types of Region, Methods of Regionalization, Macro, Meso and Micro Regions of India. Attempts of Regionalization with reference to Stamp, Spate, & R.L. Singh	15
2	Regional Analysis of Problematic Regions	Kashmir Himalaya, North Eastern Region, Tribal Regions: Central India, Middle Ganga Plain	15
3	Problems and Prospects of Development- Case Studies	Chhotanagpur Plateau, Malabar Coast, Punjab Plain, Malwa Plateau,	15
4	Development Programmes of Specific Areas	Drought Prone Areas, Flood Prone Areas, Desert Areas, Hill Areas	15
Continuous Internal Assessment			

Course outcomes

- It introduces the concept of region and regionalisation and regionalization of India
- Able to identify problems and prospects of development of different region of India
- Comprehend development programmes of specific areas.

Reference Books:

1. Bansal, S.C. (1999): Advanced Geography of India, Meenakshi Publication, Meerut.
2. Chauhan P.R. (2001): Bharat Ka Vrihat Bhoogol, Vasundhara Prakashan, Gorakhpur.

12. Singh, J. (2003): India: A Comprehensive and Systematic Geography. Gyanodaya Prakashan, Gorakhpur.
13. Singh, R. L. (ed.) (1971): India. A Regional Geography. National Geographical Society of India, Varanasi.
14. Spate, O.H.K. & Learmonth, A.T.A. (1954) : India & Pakistan, Methuen, London.
15. Tiwari, R. C. (2007): Geography of India, Prayag Pustak Bhawan, Allahabad
16. Wadia, D. N. (1959): Geology of India. MacMillan and Company, London and Madras.

B.A. IV, Sem-VIII
Course IV (Practical)

Code: GEO411F

Course: Practical

Title of the Paper: System Analysis, Geological Maps and Morphometric Analysis

Credits 0+4

Units	Topic	Sub topic	Periods
1	Measurement of Inequality	Z score, Lorenz Curve and Gini Coefficient, Location Quotient, Coefficient of Localization, Localization Curve	15
2	Network Analysis	Nearest Neighbour Analysis, Network Analysis and Degree of Connectivity, Shape Analysis, Gravity Models, Retail Gravitation.	15
3	Geological Maps	Beds, bedding Plane, Strike lines, Outcrop Drawing of Cross Sections – Inclined, Folded, Faulted Strata and Unconformable Series; Interpretation of Geological History – Nature of Relief and Rock Structure and their Correlation	15
4	Morphometric Analysis	Drainage: Density, Frequency, Dissection index Slope Analysis: Wentworth Method, Preparation of Hypsometric Curve, Altimetric Frequency Curve, Clinographic Curve using Topographical Sheet of any Hilly and Plateau region	15
Continuous Internal Assessment			

Course outcomes

- Introduces different statistical methods to measure inequality.
- Impart knowledge on quantitative measurement of spatial patterns and spatial techniques.

Reference Books:

1. Alonso, W. & Friedmann, E. (1970): Regional Development and Planning, Longman, London.
2. Bhat, L.S. (1973): Regional Planning in India, Statistical Publishing Society, Kolkata.

B.A. IV, Sem-VIII
Course V (Theory)

Code: GEO412F

Course: Elective

Title of the Paper: Political Geography

Credits 4 +0

Units	Topics	Sub-topics	Periods
1	Introduction & Approaches	Nature, Scope and Development of Political Geography; Contribution of German, British, American & Indian Scholars; Approaches to the Study of Political Geography in reference to Functional and Unified Field Theory	15
2	Nation and State	The Concept of Nation and State; Spatial Factors and Anatomy of State: Core Areas and Capitals; Frontiers and Boundaries. Evolution of Federalism, Origin and Success of Federalism in India	15
3	Strategic Views	Global Strategic Views with particular emphasis on the ideas of Mahan, Mackinder, Spykman and Deseveresky, Geopolitical Setting of India, Significance of Indian Ocean	15
4	Spatial Organisation	Elements of Electoral Geography; Geopolitical Problems of India in Relation to its Neighbouring Countries; Contemporary issues of India; Regional Co-operations – SAARC, ASEAN, European Union.	15

Course Outcomes

- To understand the scope and development of the subject matter with the understanding of the various approaches involved
- To develop the understanding on the concepts related to the anatomy of the state based on the current philosophy and established theories.
- To understand the spatial processes involved in the success of the federalism and electoral geography.
- To understand the Geopolitical Setting of India in relation to the neighbours and its significance in the world regional setting

B.A. IV, Sem-VIII
Course VI (Theory)

Code: GEO413F

Course: Elective

Title of the Paper: Urban Geography

Credits 4+0

Units	Topic	Sub-topics	Periods
1	Introduction	Nature, Scope & Development of Urban Geography, Urban Growth in Ancient, Medieval, and Modern Period, Megalopolis & Conurbation, Trend of Urbanisation in India.	15
2	Models in Urban Geography	Urban Growth Models: Concentric Zone, Sectoral, and Multiple nuclei Theory, Concept of Rank Size Rule and Primate City, law of Primacy.	15
3	Urban Morphology	Concept of Urban Morphology, Functional Classification of Urban Centres, Concept of Umland, agglomeration, SUA, Satellite Towns, Statuary Town, Continuum, Rural-Urban Fringe: Concept & Characteristics, Urban Sprawl.	15
4	Urban Policies & Planning	Problems of Cities Concept of Town Planning: Aims & Principles, Problems and Prospects of Town Planning in India Urban Policies & Smart Cities	15
Continuous Internal Assessment			

Course outcomes

- To know the scope and advancement of the Urban Geography as an established branch of the Geography as a subject
- To understand the spatial processes of urban growth and factors which affect the origin and development of urban settlements.
- To build the theoretical understanding based on certain models related to the processes of the urban morphology.
- To understand the theoretical and functional classification of the urban settlements and the related socio-economic problems and planning issues.

B.A. IV, Sem-VIII
Course VII (Theory)

Code: GEO414F

Course: Elective

Title of the Paper: Transport Geography

Credits 4+0

Units	Topic	Sub-topic	Periods
1	Introduction	Definition, Scope & Relevance to the study of Transport Geography, Historical Development of Transport System, Relative Importance of Different Modes of Transport. Concept of Spatial Interaction	15
2	Structure of Transport Network	Evolution of Transport network with special reference to Taffee, Morrill and Gould's Model. Network analysis- Concept of accessibility and connectivity	15
3	Modes of Transport	Measures of connectivity-Graph theoretic measures – Cyclomatic, Alpha, Beta, Gamma & Detour Index State of Modes and Means of Transport in India – Rail, Road, Waterways and Airways.	15
4	Policy and Planning	Transport policy in India , Transport planning , Role of Transport in Regional development.	15
Continuous Internal Assessment			

Course outcomes

- It introduces meaning and Scope & relevance of the study of Transport Geography.
- Comprehend concept of spatial interaction and its base.
- Examine mode of transport and policy planning with special reference to India.

Reference Books:

1. Houle. B.S. (1973): Transport and Development, Mc Millan, London.
2. Hurst, Elliot (1973): Transport Geography – Readings and Comments, Mc Graw Hill Book Co. New York.

10. Taffee, E.J. & Gauthier, H.L. (1973): Geography of Transportation, Prentice Hall.

UG Honors with Research

B.A. IV, Sem-VII

Course I (Theory)

Paper Code: GEO415F

Course: Theory -Core

Title of the Paper: Geographical Thought: Concepts and Issues

Credits 4

Units	Topics	Sub Topics	Periods
1	Introduction	Indian Knowledge System; Changing Paradigm of Geography; Positivism in Geography	15
2	Quantitative Revolution	Quantitative Revolution and its Impact; Systems and Models in Geography; Theories and Laws in Geography.	15
3	Major Concepts	Concept of Earth Surface; Concept of landscape; Concept of Region; Typology and Regionalization; Concept of Spatial Organization.	15
4	Humanistic Geography	Radical Geography: Geography as a Science of Human Welfare; Behavioralism & Phenomenology in Geography Concept of Post-modernism in Geography; Feminist & Gender Geography	15
Continuous Internal Assessment			

Course Outcomes

- Introduce the students changing Paradigm in Geography based on various thoughts from ancient to modern periods,
- It enhances the conceptual and philosophical knowledge of Geography.
- It explain show Geography as a Science of HumanWelfare.

Reference Books:

B.A. IV, Sem-VII
Course II (Theory)

Code: GEO416F

Course: Theory - Core

Title of the Paper: Advance Geomorphology

Credits 4

Units	Topics	Sub Topics	Periods
1	Fundamentals of Geomorphology	Meaning, Scope & Evolution of Geomorphology; Fundamental Concepts of Geomorphology; Concept of Morphogenetic region.	15
2	Theories & Models in Geomorphology	Theories of Landscape Development (Davis, Penck, JT Hack, SA Schumm; Plate Tectonics Associated Process; Slope Development Approach and Theories.	15
3	Techniques in Geomorphology	Denudation chronology, Erosion Surface; Relief and Fluvial Morphometry; Channel Morphology; Digital Elevation Model (DEM).	15
4	Applied Geomorphology	Application of Geomorphology: Disaster Management and Civil Projects: Dams (Tehri and Damodar) and Road Construction (Atal Tunnel, Uttarakhand Tunnel).	15
Continuous Internal Assessment			

Course Outcomes

- Introduces concept of time scale in Geomorphology
- Impart knowledge on different models of landscape development
- Explain its scope on applied aspects with respect to civil projects, disaster management, minerals and energy

Reference Books:

19. Anhert, F. (1996): Introduction to Geomorphology, Edward Arnold, London.
20. Bloom. A.L. (1979): Geomorphology, Prentice Hall, New Jersey, USA.

34. Sparks, B.W. (1988): An Introduction to Geomorphology, Longman, London.
35. Steers, A. (1958): The Unstable Earth, Methuen, London
36. Strahler, A.H. and Strahler, A.N. (1992): Modern Physical Geography, John Wiley, New York

B.A. IV, Sem-VII
Course III (Theory)

Code: GEO417F

Course: Theory- Core

Title of the Paper: Physical and Economic Geography of India

Credits 4+0

Units	Topics	Sub Topics	Periods
1	Geology & Relief	Geological Structure of India; Origin of Himalayas, Origin of Drainage Systems of India. Delimitation & Characteristics of Physiographic Regions	15
2	Climatic Characteristics	Mechanism and Recent Trends of the Indian Monsoon; Climatic Regions; Agro-Climatic Regions.	15
3	Resource Base	Population growth and distribution; Population Resource Regions; Role of Green Revolution; Agricultural Regions & New Trends in Indian Agriculture; Mineral Resource Regions	15
4	Industrial Development	Industrial Policies & Trend of Industrialization; Industrial Regions, Impact of Globalization on Indian Economy; Regional Development and Disparities, Problems & Prospects of Industrially Backward regions of India	15
Continuous Internal Assessment			

Course Outcomes

- Introduces physical aspects of the Indian sub-continent.
- Appraise the climatic characteristics and resource base of India.
- Discuss the pattern and level of development in India.

Reference Books:

17. Bansal, S.C. (1999): Advanced Geography of India, Meenakshi Publication, Meerut.

B.A. IV, Sem-VII
Course IV (Practical)

Code: GOE418F

Course: Practical

Title of the Paper: Cartography: Projections and Cartograms

Credits 0+4

Units	Topic	Sub topic	Periods
1	Classification and Types	Meaning, Classification, and Characteristics of Projections;	5
2	Projections with mathematical calculation	Lambert's Conical, Polyconic, Galls', Equatorial Zenithal Projection: Gnomonic, Stereographic and Orthographic Cases; Mollweide & Sinusoidal: Simple and Interrupted	15
3	Contouring	Block Diagram, Raise and Hennery Method, Hachures	10
4	Cartograms	Climatic Diagrams; Ergo-graph – Climatic and Circular; Water Budget; Multiple Dot & Spherical map	30
Continuous Internal Assessment			60
Assignment/ Presentation/Exercises/Field Work			

Course outcomes

- Impart drawing skill on map projections, various maps and diagrams
- Imparting the skills to understand and draw cartograms

Reference Books:

B.A. IV, Sem-VII
Course V (Theory)

Code: GEO419F

Course: Elective

Title of the Paper: Advance Economic Geography

Credits 4+0

Units	Topic	Subtopic	Periods
1	Introduction	Nature and scope; Systematic Development of Economic Geography, Approaches and Fundamental Concept of Economic Geography,	15
2	Application & Relevance of Location and Economic Theories	Location Theories-Von-Thunen; Industrial Location Theory-Weber, Hoover and Losch; Central Place Theory of Christaller.	15
3	Economic Development	World Economic Development, Special Economic Zones and Technology Parks, Theories of Economic development-Growth Pole Theory, Myrdal's Cumulative Causation Theory., Sustainable development.	15
4	International Trade	Factors influencing the international trade, Ricardian Theory of International trade, Emerging Trends of World Trade Pattern, Regional Trade Blocks: SAARC and ASEAN	15
Continuous Internal Assessment			

Course Outcomes

- Introduces nature, scope, methods, approaches and recent trends in economic geography
- Impart knowledge on different locational theory
- Able to explain changing concept of development, world trade patterns and theory on International trade.

Reference Books:

B.A. IV, Sem-VII
Course VI (Theory)

Code: GEO420F

Course: Elective

Title of the Paper: Remote Sensing

Credits 4+0

Units	Topics	Sub-topics	Periods
1	Basics of Remote Sensing	Definitions, Scope, potentials and limitations of Remote Sensing; Development in the world and in India, Stages of Remote Sensing, Principles and concept of Remote Sensing: Radiation and Resolution concepts	15
2	Principle of Electromagnetic Radiation	Principle of Electromagnetic Radiation, Electro-magnetic Radiation (EMR)- The nature of radiation; Radiation at source; Radiation in propagation; Radiations at its target; Radiation from sun; Radiation from the earth Properties of EMR; Atmospheric windows; Perturbing effects of the atmosphere.	15
3	Sensors and Sensors	Fundamental properties of sensors; types of sensors- Passive and active sensors; Optical scanner, thermal scanner; Multispectral scanner. Types of Remote Sensing, Platforms and Sensors, LANDSAT And IRS Satellite System	15
4	Geometrics of Aerial photographs	Geometric characteristic of aerial photographs- scale, overlap, side lap, vertical exaggeration, and geometric resolution. Introduction to Elements of Photographic System: Camera System, Film. Basic Geometry & Characteristics of Aerial Photograph, Scale, Image Parallax, Ortho Photo. Photo features, relief displacement.	15
Continuous Internal Assessment			

Course outcomes

- It gives an overview of remote sensing process
- It introduces aerial photo and photo grammetry and satellite remote sensing
- Enables image processing procedure and identify applications of remote sensing

Reference Books:

19. American Society of Photogrammetry (1983): Manual of Remote Sensing, Falls Church, VA.
20. Avery, T. E. and Berlin, G.L. (1992): Fundamentals of Remote Sensing and Air photo Interpretation, Mc Millan, N. York.

33. Lillesand, T.M. and Kiefer, R.W. (2000): Remote Sensing and Image Interpretation. 4thedition. John Wiley and Sons, New York.
34. Nag, P. (ed.) 1992: Thematic Cartography and Remote Sensing, Concept Publishing. Company, New Delhi.
35. Sabins, F. F. (1996): Remote Sensing: Principles and Interpretation, W.H Freeman, New York
36. Sharma, H.S. (2003): Remote Sensing for Resource Survey, Concept Publication, New Delhi.

B.A. IV, Sem-VII
Course VII (Theory)

Code: GEO421F

Course: Elective

Title of the Paper: Rural Development

Credits 4

Units	Topics	Sub Topics	Periods
1	Introduction	Concept, Approach and Need of Rural Development, Sectoral Imbalance in Rural Development	15
2	Spatial Linkages	Panchayati Raj: Structure and Role in Rural Development Rural-Urban Divide and Continuum, Core and Periphery Relations. Backward and Forward Linkages of Rural Economy.	15
3	Major Issues	Issues and Problems of Rural Areas, Causes & Consequences of Rural Population Migration in India. Transition of Rural Livelihood: Risk and Opportunities	15
4	Policies & Programmes	Area Based Approach to Rural Development: DPAP, PMGSY, Target Group Approach to Rural Development: SJSY, MNREGA, Jan Dhan Yojna IRDP, PURA,	15
Continuous Internal Assessment			

Course outcomes

- It introduces basic concept of rural development and its approaches.
- Appraise problems of rural areas and change in rural livelihood.
- Able to analyses policy planning and integrated rural development.

Reference Books:

14. Arora, R.C. (1999): Integrated Rural Development, S. Chand & Company, New Delhi.
15. Bhadauria, B.P.S. (1988): Rural Development Strategy and Perspective, Anmol Publication, Delhi.
16. Chauhan, P.R. (1996): Regional Disparities in the Levels of Development, AMGI, Gorakhpur.
17. Dak, T.M. (1987): Social Inequalities and Rural Development, National Publishing House, New Delhi.
18. Desai, Basant (1988): Rural Development VI Vols., Himalaya Publishing House, Mumbai.
19. Dubey, Bechan (1990): Integrated Rural Development (Hindi), Mishra Trading Company, Varanasi.
20. Mishra, R.P. (1987): Rural Development – Capitalist and Socialist Paths, Concept, New Delhi.
21. Misra, R.P. & Sundaram, K.V. (1988): Rural Area Development: Perspective and Approaches, Sterling Publishers, New Delhi.
22. Sharma, S.K. (1990): Integrated Rural Development: Approaches, Strategy and Perspectives, Abhinav Publication, New Delhi.
23. Singh, Katar (1990) Rural Development : Principles, Policies and Management, Sage Publications, New Delhi.
24. Singh, S.K. (2002): Rural Development Policies & Programmes, Northern Book Centre, New Delhi.
25. Srivastava, V.K., Sharma N. & Chauhan, P.R. (2002): Pradeshtik Niyojan Avam Santulit Vikas, Vasundhara Prakashan, Gorakhpur.
26. Dikshit, S.K. (2012): Population and Regional Development, Radha Publication, New Delhi.

B.A. IV, Sem-VIII
Course I (Theory)

Code: GEO422F

Course: Theory -Core

Title of the Paper: Climatology

Credits 4+0

Unit	Topic	Sub-topics	Periods
1	Introduction to climate	Weather and Climate, Nature and Scope of Climatology; Electromagnetic spectrum; Insolation; Lapse rate and Inversion of Temperature; Stability and instability.	15
2	General Circulation	Winds and general circulation models; Humidity, Fog and Clouds type; Precipitation & its type; Mechanism of Monsoon – Recent Concepts, El-Nino, La- Nina and ENSO Event.	15
3	Front and cyclone	Air Masses, Fronts & Frontogenesis; Cyclone: Tropical and Temperate; Anti-cyclone.	15
4	Climatic classification and changes	Koppen's, Thornthwaite's & Trewartha's Classification; Climate Change; Weather Forecasting	15
Continuous Internal Assessment			

Course outcomes

- Introduces the meaning, scope and development of modern climatology
- Critically examine the mechanism of monsoon and climatic regionalization.
- Comprehend circulation of atmosphere, human impact on the climate and applied climatology.

Reference Books:

15. Banerji, R.C. & Upadhyay, D.S. (1999): Mausam Vigyan, Rajasthan Hindi Granth Academy, Jaipur.
16. Critchfield, H.J. (2002): General Climatology, Prentice Hall of India, New Delhi.
17. Hobbs, J.E. (1983): Applied Climatology, Butterworths, London.
18. Kendrew, W.G. (1972): Climatology, Oxford Uni. Press.
19. Lal, D.S. (2001): Climatology, Chaitanya Pub. House, Allahabad.
20. Lockwood, J.G. (1974): World Climatology and Environmental Approach, Edward Arnold, London.
21. Mathur, J.R. (1974): Climatology: Fundamentals and Applications, Mc Hill Book Company, New York.
22. Negi, B.S. (1999): Climatology and Oceanography (in Hindi), Kedarnath Ramnath, Meerut.
23. Rob Van Den Berg (2009) Evaluating Climate Change and Development. Prentice Hall, Englewood Cliffs, New Jersey 0762, 1998

27. Trewartha, G.T. (1954): An Introduction to Climate, McGraw Hill Series in Geography. New York
28. Upadhyay, D.P. & Singh, R. (2003): Climatology and Hydrology (in Hindi), Vasundhara Prakashan, Gorakhpur.

B.A. IV, Sem-VIII
Course III (Theory)

Code: GEO423F

Course: Theory -Core

Title of the Paper: Research Methodology

Credits 4+0

Unit	Topics	Sub-topics	Periods
1	Scientific Research in Geography	Concept, Meaning and Objectives of Research, Types of Research, Overview of Research Process	15
2	Methods and Sources of Data collection	Techniques of Data Collection: Questionnaire and Interview Schedule, Interview, Observation, Case Study; Preparation of Questionnaire, Sampling Design, Selection of Respondents. Sources of Data: (A) Secondary Data: Census, NSS, CSO, Aerial Photographs and Satellite Imageries, Web Portal (B) Primary Data: Observational Method, Questionnaires and Interviews; Sampling Methods.	15
3	Research Process	Defining Research Problem: Identification of Problems, Specification of Objectives, Review of Literature, and Conceptualization of Research Problem, Research Questions and Hypotheses. Research Plan.	15
4	Report writing	Tabulation and Compilation of Data, Content Analysis, Citation, References, Bibliography, Review of Literature, Formatting of Research Reports	15
Continuous Internal Assessment			

Course outcomes

- Can understand scientific research in Geography.
- Understand the Methods and Sources of Data collection
- Explain research process and know report writing.

Reference Books:

B.A. IV, Sem-VIII
Course II (Practical)

Code: GEO424F

Course: Practical

Title of the Paper: Dissertation

Credits 0+12

Instruction for Dissertation Writing
<ul style="list-style-type: none">• The Dissertation can be done on any topic related to geography, it will be like a mini Thesis. It should be compiled in various chapters. The introduction chapter presents the core research question and aims. The literature review chapter assesses what the current research says about this question. The methodology, results and discussion chapters go about undertaking new research about this question.• Typewriting of the dissertation work should always be on an A4 size sheet. The font must be vivid and clear. Use a similar font in the entire dissertation. <p>(As per UGC Guideline)</p>
